NEW SKIRT FOR 1865-6.

The Great Invention of the Age is

HOOP SKIRTS.

W. BRADLEY's New Patent DUPLEX ELLIPTIC
(or double) SPRING SKIRT.

This invention consists of Duplex (or two) Elliptic Pure Redundant Steel Springs ingeniously Braced together and made to fit the Body, making it so flexible and pliable. Elastic, Strong and Durable being ever used. They seldom Bend or Brake, as the single springs, and consequently preserve their perfect and beautiful shape more than twice as long as any single Spring Skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Oceans, Carriages, Railroad Cars, Church Pews, etc., where the skirt is liable to be pressed against the skirt, causing pain when in use. To occupy a small space as easily and conveniently as a Still or Muslin Dress.

A lady having enjoyed the pleasure, comfort and pleasure of wearing the Duplex Elliptic Skirt for a single day will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

The Hoods are covered with a fine double twisted silk and will fit all the sizes of the girls, and coverings which are used on all sizes of Hoods. The three bottom ends on every Skirt are Bound stiched, and twice or double covered to prevent the covering from wearing at the rods when dragging down stairs, stone steps, &c., &c., when they are covered with silk.

All are made of the best and easiest Gored Tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most flexible, comfortable and durable skirt ever made.

W. BRADLEY & CO., Proprietors, Office of Inspection, and Soap Manufacturers, 79 Chambers, and 79 & 81 Broadway, New York.

For Sales in all first-class Stores in this City, and throughout the United States and Canada, have a de
